NADI Continuing Professional Development Series

The National Diabetes Institute (NADI) of Malaysia, organises the Continuing Professional Development (CPD) Series annually since its inception in 2002. In 2008, this CPD was expanded as “**Diabetes Asia Conference**” (DAC) to emphasise the uniqueness of diabetes presentation and management in Asians.

This year, the “Diabetes Asia 2026” Conference is to be held in Kuching, Sarawak on the island of Borneo with support from the Sarawak Government through BESARAWAK. While attending the Conference, participants will also have the opportunity to experience Sarawak’s diverse culture and appreciate its unique flora and fauna.

Objectives of the Conference

The Continuing Professional Development (CPD) Series as “**Diabetes Asia 2026**” Conference aims to help improve management of diabetes with emphasis on recent advances and practical aspects of diabetes care. Participants are expected to be able to:

- ◆ Appreciate recent advances and practical aspects of diabetes care.
- ◆ Understand ways of ensuring early diagnosis and optimal management for good control of diabetes, complications and associated diseases
- ◆ Apply knowledge gained during the Conference to further improve care for persons with diabetes in the community

Who Should Attend

About the National Diabetes Institute (NADI)

The National Diabetes Institute (NADI) is established to provide a dedicated and comprehensive service for people with diabetes, to prevent and control diabetes, its complications and associated diseases.

NADI is a **non-profit, Non-Governmental Organisation (NGO)** managed by a Board of Trustees, comprising of Founding and Elected members and representatives from the Malaysian Endocrine and Metabolic Society (MEMS), Diabetes Malaysia (DM) and Ministry of Health (MOH), Malaysia with our former Prime Minister YABhg. Tun Dr. Mahathir Mohamad as Patron.

The main objectives of NADI are:

- to be a National Diabetes Education Resource Centre for the country
- to establish and run a comprehensive health facility including a National Diabetes Hospital for the management of diabetes and its complications
- to create and maintain a National Diabetes Registry
- to coordinate and conduct research in diabetes and related conditions
- to be the national coordinating centre for diabetes in Malaysia in respect to statistics, education, management, research, policy and planning on diabetes and associated diseases
- to prevent diabetes and associated cardiometabolic conditions such as high blood pressure, high blood cholesterol and heart disease through promotion of healthy lifestyle
